

Industrial Applications of Frontier SIMS

Thursday,

September 17 | 2009

8:40 am - 8:00 pm

Delta Chelsea Hotel, Toronto

33 Gerrard Street West

Toronto, Ontario

A special workshop sponsored by Ontario Centres of Excellence as part of the 17th International Conference on Secondary Ion Mass Spectrometry

Ontario Centres of
Excellence
Where Next Happens

Industrial Applications of SIMS – Solving Problems in the Real Material World

As part of the SIMS XVII a special all-day workshop will be held on the use of SIMS in applied materials research with special emphasis on industrial applications – both on research and problem solving. In addition to the contributed and invited talks, there will be a one hour panel discussion which will allow people from industry (and academia) to ask questions about SIMS as well as a special section on industrial applications in the conference poster session. This will be a great opportunity for participants of the workshop to interact with SIMS experts from around the world and see how this technique can be applied to their particular problems.

Student Session – Careers in Industry

3 invited speakers will discuss how to get from grad school to the perfect career

8:40 Contributed Presentations (6)

10:40 Coffee

11:00 Contributed Presentations (4)

12:20 Invited Talk 1 - Application of SIMS for Studying Corrosion in the Nuclear Industry. A.M. Brennenstuhl. Ontario Power Generation

1:00 Lunch Break

2:00 Invited Talk 2 - Applications of ToF-SIMS in the Medical Device Industry. A.M. Belu. Medtronics

2:40 Contributed Presentations (3)

3:40 Coffee

4:00 Panel Discussion

A.M. Belu - Medtronics, USA
A.M. Brennenstuhl - Ontario Power Generation
B. Hagenhoff - TASCON GMBH, Germany
H-N. Migeon - Centre de Recherche Public - Gabriel Lippmann, Luxembourg
M. Pacholski - Rohm & Haas, USA

5:00 Special Student Session – Careers in Industry (sponsored by NSERC).

A.M. Belu - Medtronics
W. Chang - Pivotry Consulting, Ontario
C. Mahaney - NIST, USA

6:00 Conference Poster Session

Registration (for non-conference attendees)

OCE Members - \$150

Students / PDFs - Free
(but please register)

Others - normal conference rate

(This session is part of the Conference and registered attendees do not need to register for this)
